Work experience — 1 year 2 months

April 2022 — till now
1 year 2 months

Freelance

Software Engineer

At the start of my career I was writing telegram bot- https://github.com/VladKulikk/EconomyBot

Than I move on C++ because it required in the university
https://github.com/VladKulikk/Lab5
https://github.com/VladKulikk/Lab6

Also I am learned HTML/CSS/JS + Vue
https://github.com/VladKulikk/Likcoffee1
https://github.com/VladKulikk/Plain
https://github.com/VladKulikk/Web4Labs

Learning Python I have learnt about OOP, file IO streams

Learning C++ I have learnt static typization, recursion, data structures, pointers, CMake, Static/Dynamic array

Now I am learning Windows Application on C++

While studying the Web, I got acquainted with the DOM tree, events, JS and the Vue framework and the component structure of SPA applications

Skills
Работоспособность   Vue   C++   Python   Linux   Docker   Git   Docker Compose

Further information

About me
I wrote all my skills in the first (and at the moment the only place of work) since I acquired them there.

I also studied Linux using this manual - https://missing.csail.mit.edu/2020/metaprogramming/
